**Weight Management**

# Caffeine Capsules for Weight Management

## Features

- Caffeine Capsule is a weight management formulation developed using V-Fill technology. Safflower oil, a source of oleic acid, is used as a medium.
- Caffeine is present as micro-granules. Microgranules are a technology that utilizes long-release pellets to gradually release caffeine.

## Supplement Facts

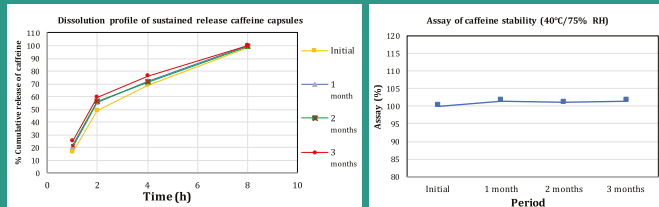

- Caffeine: 131 mg/capsule
- Clear transparent gelatin capsule

## Packaging

- Available in bulk
- HDPE bottles
- Blister packs (on request)

## Science Behind the Product

Stability conditions as per ICH guidelines

These are food supplements; not intended to treat, diagnose, mitigate, prevent, or cure any diseases.

## For Nutraceutical Companies
