

Slow by Wellbeing Nutrition

Phase release nutrition in fast-acting custom liquid capsules for optimal bioavailability.

Faster Way to Better Health

Phase release nutrition in fast-acting custom liquid capsules for optimal bioavailability

- Advanced dosage form with cutting-edge liquid encapsulation technology
- Secured with band sealing
- Available in vegetarian HPMC variant
- Ideal for filling liquids, semi solids, pastes, and every other combination

Dual delivery system packs essential nutrients, minerals and compounds into a single, powerful dose

Precision Nutrition Technology

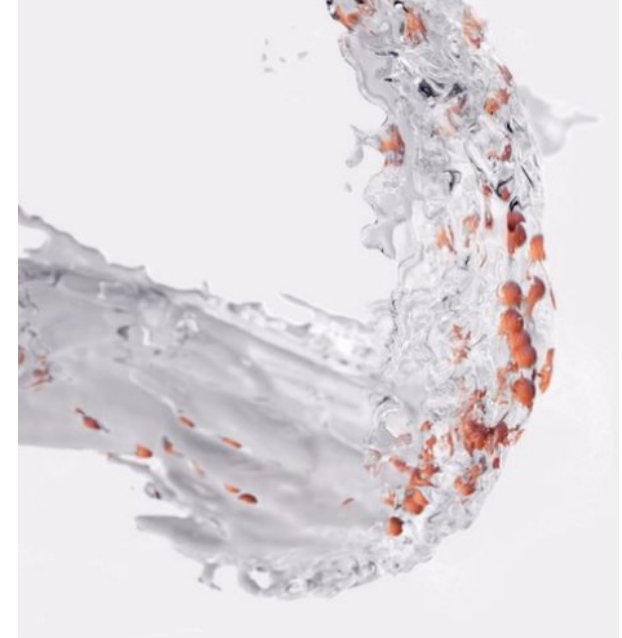

Slow Release

Timed, sustained bioavailability for when your body needs it

Nature x Science

Highest quality vitamins, adaptogens, minerals, plant extracts

V-Fill(™) Technology

Better ingredients, better dosage, better absorption

The Product

More ingredients

Delivers optimum nutrition in one capsule packed with the right mix of essential ingredients

Greater absorption

Enables faster onset of action by facilitating faster absorption of nutrients

Controlled release

Immediate release, sustained release, time and pH dependent release, making it more convenient and flexible for the consumer

More palatable

Masks unpleasant odour and bad aftertaste; its smooth surface enhances the swallowing experience

Consumer friendly

Aesthetically appealing, premium look, and motivation to not skip the supplement dose

Accurate dosage

Uniform and accurate dose as compared to powders or most other dosage forms

The Vantage Advantage

Encapsulation

Taste and odour masking

Combination Filling

Liquid + pellets/capsules

Vegetarian

HPMC

Challenging Formulations

High viscosity + incompatible and poorly soluble ingredients

Band Sealing

Tamper and leak-proof

Stunning Design

Shelf impact + aesthetic appeal

Capsule Colours

Extensive range of colours with intricate printing options
